Objective

Aspiring Software Engineer with expertise in full-stack development, blockchain, and cloud computing. Passionate about solving complex problems and building scalable applications.

Education

B.E. in Computer Science , Chandigarh University (2022–2026)	CGPA: 7.63
Intermediate (BSEB) , KST College (2018–2020)	71.20%
Matriculation (BSEB) , Kishan HS School (2017–2018)	65.80%

Technical Skills

Languages: C++, Java, JavaScript, Solidity
Web: HTML, CSS, React.js, Next.js, Node.js, Express.js
Databases: MongoDB, MySQL
Cloud/DevOps: Docker, Kubernetes, AWS (EC2, S3)
Tools: Git, Postman, VS Code, Linux, Selenium, Maven, Gradle, Jenkins

Projects

- Blockchain-Based Fundraising Campaign** (Jan–Apr 2024) Solidity, Ethereum, React.js
- Developed Ethereum smart contracts for secure fundraising. - Built a React.js dashboard for real-time fund tracking. - Optimized Solidity code, reducing transaction costs by 30%. - Ensured transaction security using cryptographic techniques and smart contract auditing.
- CloakShare - Temporary File and Text Storage** (Jul–Oct 2024) MERN, Google Drive API
- Built an anonymous file-sharing platform with Google Drive API. - Managed 1,000+ files/month, optimizing server response time by 25%. - Implemented robust authentication and encryption mechanisms to protect user data.
- Trunkler - AI UI Component Generator** (Nov 2024–Feb 2025) MERN, Gemini API, Razorpay
- Created an AI-powered platform for generating React UI components. - Handled 1,500+ active users, processing 50,000+ records monthly. - Integrated payment processing and user authentication for seamless premium feature access.

Certifications and Achievements

- Scholarship Recipient - Metacrafter (Training with distinction)
- Certificate of Merit in Blockchain (Solidity, Ethereum)
- Ranked 4th in Aptitude Wizard 2024, Chandigarh University

Interpersonal Skills

- Analytical Thinking
- Effective Communication
- Leadership
- Problem-Solving
