CAREER OBJECTIVE

Full Stack Developer with experience in building **scalable, high-performance, and user-centric web applications**. Skilled in **JavaScript frameworks, backend engineering, cloud services, and database optimization**. Seeking an opportunity to apply strong problem-solving abilities, clean architecture principles, and a focus on reliability, performance, and security.

EDUCATION

Bachelor of Engineering in Computer Science Chandigarh University, India	2022 – 2026 CGPA: 7.82
Intermediate (12th), BSEB KST College	2018 – 2020 71.20%
Matriculation (10th), BSEB Kishan High School	2018 65.80%

SKILLS

- **Programming:** JavaScript, Bash Scripting, Java, HTML, CSS
- **Frameworks/Libraries:** React.js, Node.js, Express.js
- **Databases:** MongoDB, MySQL
- **Cloud & DevOps:** Linux, AWS, Docker, Jenkins
- **Tools:** Git, GitHub, Postman, VS Code, top, htop
- **Terminal Editor:** Nano Editor , Vim Editor(basic)

PROJECTS

ReviewAI — Real-time AI Code Review Platform	<i>Feb 2026 – Apr 2026</i>
• Built a GitHub-style AI code review tool with real-time, token-streamed feedback. • Detects bugs, performance issues, and bad practices with line-level comments and fix suggestions. • Added code scoring, diff viewer, and sharable review links for enhanced developer experience. • Tech: Next.js, Node.js, Express.js, OpenAI API, SSE, MongoDB	
Self-Healing Infrastructure Platform for Linux Systems	<i>Dec 2025 – Mar 2026</i>
• Built a Linux-native self-healing system to automatically detect failures and restore services. • Implemented monitoring for CPU, memory, disk, and service health with rule-based recovery actions. • Added safety guardrails (cooldowns, retries, command whitelisting) to ensure controlled automation. • Developed a real-time observability dashboard and published a related research paper. • Tech: Linux, Node.js, Express.js, Shell Scripting, Docker	
CloakShare — Anonymous File & Text Sharing Platform	<i>Jul 2024 – Oct 2024</i>
• Developed a secure MERN-based sharing platform with 100+ monthly uploads. • Integrated Google Drive API with encryption, improving retrieval speed by 40%. • Containerized application using Docker, reducing deployment time by 50%. • Tech: MongoDB, Express.js, React.js, Node.js, Docker, Google Drive API	

CERTIFICATIONS

- **Blockchain Technology using Ethereum** — Metacrafter Scholarship (2023)
- **Hack It Out Hackathon, Technex'25 (IIT BHU)** — Secured 3rd Place
- **Apitude Wizard Competition** — Secured 3rd Place
